Cairns also boasts the conveniences of a thriving major city including world-class restaurants, hotels, modern infrastructures and an international airport with nonstop connections to many Asian and Pacific hubs.

Studying in Cairns offers a broad range of experiential learning programs within a spectacular natural setting as the city is fringed by the Great Barrier Reef, enveloped by World-Heritage rainforest and ringed by the red-dirt of the outback. Students can immerse themselves in the environment and encounter a learning style that encourages innovative, creative and independent thinking.

In their free time – students can learn to dive, snorkel tropical islands, cycle or hike through lush forests, discover hidden waterfalls, get involved in a conservation project, explore food trails, visit bustling local farmers markets, enjoy a BBQ on the beach or join a tour to discover rich indigenous culture and visit ancient rock art sites.

Cairns is a culturally-diverse, safe community complemented by a calm pace, lower cost of living and quality accommodation offerings to suit different budgets and needs. These include shared living in a house or apartment, homestay with an Australian family and purpose-built student accommodation, on or off-campus.
